COLONEL LEE YOUNG IL, KPA  
COLONEL HAN JU KYONG, KPA

Meeting convened at 1030 hours

KPA/CPV:

On the morning of April 6, 1961, a rubber boat carrying five armed persons of your side entered and were sailing about the waters of the Han River Estuary, and at about 0640 hours our time on the same day intruded into the waters under the control of our side about 50 meters from the spot at 37 degrees 47 minutes 15 seconds North, 126 degrees 37 minutes 00 seconds East on the shore of our side.

Our personnel then on guard at the guard post on the bank of our side gave warnings several times to the boat from your side which was illegally approaching the shore of our side, demanding its prompt departure from the waters under the control of our side.

Instead of complying with the warning signal from our side, however, the vessel from your side had not only drawn closer to the shore of our side, but all of a sudden opened provocative firing on the guard post of our side.

Having been subjected to a surprise attack by your armed gang, our personnel had no alternative but to take a measure of self-defense.

This fiendish attack by your side constitutes not only a flagrant violation of the Preamble, Paragraphs 12 and 17 of the Armistice Agreement as well as of the QUOTE Rules for Civil Shipping in the Han River Estuary and Related Matters,

KPA/CPV: (CONTD)

UNQUOTE but a very dangerous action which might cause serious dispute undermining the basis of Korean armistice.

I have been directed to lodge a vigorous protest with your side against the provocative hostility it has committed by dispatching its armed gang illegally to intrude into the waters in the Han River Estuary.

At the same time, I demand energetically that your side severely punish in accordance with the terms of the Armistice Agreement the chief agents who arranged the recent military provocation and all of your personnel involved in the criminal action and that your side take thorough-going measures to cease such hostile acts in the future.

UNC:

In keeping with the letter and spirit of the Armistice Agreement, your charge of a naval violation will be investigated.

KPA/CPV:

I demand that your side punish the criminals who have committed the outrageous provocation against our side and that your side take thorough steps to prevent a recurrence of similar actions in the future.

I have a statement to make on another subject.

In disregard of our repetitive protests and warnings, your side again dispatched at approximately 0935 hours our time on March 21, 1961, its submarine-chaser number 705 to intrude into the sea in the vicinity of 38 degrees 40 minutes North, 128 degrees 26 minutes East in the coastal waters of our side in order to conduct reconnaissance.

It is a flagrant violation of Paragraph 15 of the Armistice Agreement stipulating that the opposing naval forces QUOTE shall respect the waters contiguous to the Demilitarized Zone and to the land area of Korea under the military control of the opposing side, and shall not engage

KPA/CPV: (CONTD)

in blockade of any kind of Korea UNQUOTE for your side to have dispatched its naval vessel into the coastal waters of our side.

This criminal act of your side is a very dangerous action which may cause serious consequences and it should be scathingly condemned.

At the order of the Senior Member of our side, I lodge a strong protest with your side against the serious violation of the Armistice Agreement that it has infiltrated its naval vessel again recently into the coastal waters of our side.

At the same time, I demand that your side punish severely under Sub-paragraph 13e of the Armistice Agreement all of your personnel involved in the recent criminal action, and that it take thorough-going steps to desist from such violation of the Armistice Agreement as to continue to dispatch its naval vessels.

UNC:

Again in keeping with the letter and spirit of the Armistice Agreement, your charge of an alleged intrusion will be investigated.

KPA/CPV:

Your side should conduct a responsible investigation at the earliest date into your violation of the Armistice Agreement brought up by our side, punish those involved in the criminal act, take responsible steps to prevent a recurrence of similar provocative acts in the future, and then report the results to the Military Armistice Commission.

I have a statement to make on violations of the Armistice Agreement your side has kept committing recently in the Demilitarized Zone.

Around 1120 hours our time on March 12, 1961, one military person of your side appearing in the vicinity of

KPA/CPV: (CONTD)

38 degrees 15 minutes 05 seconds North, 127 degrees 04 minutes 20 seconds East in your portion of the Demilitarized Zone carried an automatic weapon.

Around 1200 hours our time on March 21, 1961, five armed personnel of your side appearing in the vicinity of 38 degrees 19 minutes 05 seconds North, 127 degrees 41 minutes 20 seconds East in your portion of the Demilitarized Zone, walked around there and at about 1210 hours our time, one of them crossed the Military Demarcation Line to intrude into our portion of the Demilitarized Zone in the vicinity of 38 degrees 19 minutes 20 seconds North, 127 degrees 41 minutes 10 seconds East.

Around 1830 hours time on March 29, 1961, one of the four military personnel of your side appearing in the vicinity of 37 degrees 57 minutes 18 seconds North, 126 degrees 41 minutes 20 seconds East in your portion of the Demilitarized Zone carried an automatic weapon.

Around 0910 hours our time on March 17, 1961, your side exploded two explosives in the vicinity of 38 degrees 12 minutes 34 seconds North, 127 degrees 00 minutes 22 seconds East in your portion of the Demilitarized Zone.

And also, your side detonated one explosive each around 2035 hours our time on March 18, 1961, in the vicinity of 38 degrees 01 minute 35 seconds North, 126 degrees 51 minutes 18 seconds East, around 2130 hours time on March 24, 1961 in the vicinity of 38 degrees 18 minutes 12 seconds North, 127 degrees 11 minutes 56 seconds East, and around 0320 hours our time on March 29, 1961, in the vicinity of 38 degrees 03 minutes 47 seconds North, 126 degrees 52 minutes 17 seconds East in your portion of the Demilitarized Zone.

These facts have irrefutably proved that your side has illegally introduced hazards into the Demilitarized Zone,

KPA/CPV: (CONTD)

stockpiling and planting them there.

Your side dispatched its Civil Police to intrude into our portion of the Demilitarized Zone, thereby violating Paragraph 7 of the Armistice Agreement.

Your side allowed its Civil Police personnel to carry automatic weapons, thereby violating the agreement reached by both sides at the 4th meeting of the Military Armistice Commission.

Your side has accumulated or planted hazards in the Demilitarized Zone, thereby violating the relative provisions of the Armistice Agreement for the control and maintenance of the Demilitarized Zone.

I have been instructed by the Senior Member of our side to lodge a vigorous protest with your side against these violations of the Armistice Agreement by your side.

At the same time I demand that your side conduct responsible investigations into these incidents, strictly punish your personnel involved and take thorough-going measures to prevent the recurrence of similar hostilities in the future.

UNC:

Always in keeping with the letter and spirit of the Armistice Agreement the United Nations Command will conduct an investigation into the alleged ground violations charged by your side.

KPA/CPV:

I have noted your statement that investigations will be made into the violations by your side of the Armistice Agreement.

I have a statement to make on yet another subject.

Your side has not taken any measures for compliance with the terms of the Armistice Agreement and the Agreements and Understandings for the control and maintenance of

KPA/CPV: (CONTD)

the Demilitarized Zone, with the result that the same violations have continuously occurred.

During the period from March 11, 1961 to March 31, 1961 alone, the violations of the Agreements and Understandings between both sides by your personnel and vehicles appearing in your portion of the Demilitarized Zone without displaying the prescribed distinctive insignia and markings amount to 34 cases. This is entirely due to the falsity of the investigations which were alleged to have been made by your side in the past and to the irresponsible steps taken by it.

I now hand you two copies each of Korean and English versions of the list which contains detailed accounts of the violations of the Agreements and Understandings by your side.

I have been instructed by the Senior Member of our side to lodge a protest against the violations of the Agreements and Understandings your side has continuously committed.

At the same time, I demand that your side conduct responsible investigations into these incidents, severely punish your personnel involved in accordance with the provisions of the Armistice Agreement and take thorough measures to prevent the recurrence of similar incidents.

UNC:

In the past it has been a practice of your side to make many false charges to give the impression that it is the United Nations Command that violates the Armistice Agreement. Whereas the truth is that the majority of the violations are by the Communist side, and many of these recent violations have been directed against the free people of south Korea. Regardless of how absurd your charges may be, the United Nations Command has always conducted a

UNC: (CONTD)

complete investigation. Therefore your so-called list will be investigated.

New subject.

In keeping with the letter and spirit of the Armistice Agreement the United Nations Command has conducted a complete and thorough investigation of the alleged air violation on 8 March 1961, charged by your side at the 229th meeting of the Secretaries.

The results of that investigation show that an aircraft of the United Nations Command did, inadvertently, intrude into the air space over the territory under the military control of your side.

Appropriate action as required by the Armistice Agreement has been taken.

Another subject.

Our side protests a deliberate hostile act of reconnaissance by your side. At about 1357 hours, Korean Standard Time, on 22 March 1961, one illegally introduced high performance jet fighter type aircraft of **your** side crossed the Military Demarcation Line in the vicinity of 38 degrees 18 minutes 10 seconds North, 127 degrees 29 minutes 35 seconds East at a high rate of speed and low altitude heading in a southerly direction passing near the town of KUMHWA of our side, proceeded south to the vicinity of 38 degrees 01 minute 28 seconds North, 127 degrees 19 minutes 57 seconds East of our side arriving at about 1403 hours, Korean Standard Time, and circled the area three times. It then flew off in a northwesterly direction and recrossed the Military Demarcation Line in the vicinity of 38 degrees 15 minutes 55 seconds North, 127 degrees 04 minutes 28 seconds East at about 1409 hours, Korean Standard Time. This hostile reconnaissance flight was observed by many people in the Republic of Korea.

UNC: (CONTD)

This flight was an obviously premeditated mission of aerial reconnaissance ordered by your side to increase tension and further the war-like atmosphere that your side maintains.

This is a clear violation of Paragraphs 12, 16, and 17 of the Armistice Agreement as well as the Preamble, and Paragraphs 8, 9 and 25d. The mere fact that this high performance aircraft is in the territory of your side, points to your malicious violation of Paragraph 13d in introducing your side's air forces without reporting them to the Neutral Nations Supervisory Commission.

I demand your side investigate this violation, report the results to our side in accordance with Paragraph 25g, and punish those responsible as specified in Paragraph 13e of the Armistice Agreement. I further demand your side take positive action to insure that no such violation shall occur again in order that a peaceful atmosphere may be reestablished in Korea.

I realize that the propaganda plan of the Communist imperialists requires you to lie and deny all violations even without any investigation. You will undoubtedly do the same with this violation.

Your denial will reveal your complete disregard for the truth because many persons in the free part of Korea clearly saw this flight as they have seen other intrusions by your aircraft during recent weeks.

KPA/CPV:

Incomparably wretched is the position in which you are wagging your tongue as dictated by your master without knowing what imperialism is.

It is expressly provided by the Armistice Agreement that punishment shall be dealt out to those violating the terms of the Agreement.

KPA/CPV: (CONTD)

Being the offender who violated the Rules for the Control and Maintenance of the Demilitarized Zone, therefore, it is improper for your side to advance any reason or pretext in meeting this requirement of the Armistice Agreement.

You have just used a number of absurd quibbles, but that is a trick designed to lessen even slightly the seriousness of its criminal acts that have been disclosed and evade its obligation imposed by the Armistice Agreement. Our side never tolerates but resolutely denounces it.

What your side has to do now is to implement the requirements of the Armistice Agreement exactly instead of taking such an insincere position.

It is extremely improper for you to take an attitude of indulging in absurd sophistries while admitting the intrusion by its military aircraft into the territorial air of our side on March 8, 1961.

Precisely because of such attitude of your side the violations of the Armistice Agreement by the military aircraft of your side intruding into our territorial air to commit provocative acts have not ceased but continue to occur.

Then, how can you allege that the provocative acts of your side dispatching its military aircraft incessantly to intrude into the territorial air of our side have been committed QUOTE inadvertently? UNQUOTE

Such intrusions by the military aircraft of your side have never been committed by any inadvertency, but they are premediated and intentional hostile acts committed by your side for the purpose of further aggravating tension in Korea and stepping up preparations for another war.

With no pretext can your side explain away its violations of the Armistice Agreement nor can it lighten

KPA/CPV: (CONTD)

its responsibility.

Your side should desist from talking futile nonsense and take responsible action to prevent a recurrence of similar hostile acts.

You have levelled preposterous charges in order to conceal the incessant violations by your side of the Armistice Agreement and to mislead international public opinion.

It is generally known that our side has committed no violation of the Armistice Agreement.

Contrary to your allegation, it is precisely you, U.S. imperialists who have illegally introduced various new type weapons and combat materiel and that are making frantic preparations for a new war, and that are intensifying tension in Korea by incessantly infiltrating into our side illegally introduced new vessels and military aircraft to commit provocative hostilities.

And the whole world knows the fact that you have mobilized large number of various weapons and tanks illegally introduced in order to kill mercilessly the south Korean people who have risen up against the U.S. imperialists and their puppets.

This is why the Korean people and the peace-loving peoples the world over are keenly watching every move of yours, denouncing you, the U.S. imperialists, as the chieftain of aggression and war and the heinous enemy to mankind.

Once again I declare that our side has always strictly observed and still observes the Armistice Agreement.

Your charge will be investigated by our side as required by the Armistice Agreement.

UNC:

The United Nations Command admits that man is not infallible. Occasionally, unintentional violations of the Armistice Agreement by United Nations Command personnel may occur. Such violations are readily admitted and the true facts made known. This conduct by the United Nations Command demonstrates to the world that the United Nations Command is faithful to the terms of the Armistice Agreement, and contrasts with the intransigence of your side, which frequently violates the Armistice Agreement but never admits it.

It is certainly obvious to trained military personnel of your side that this crossing of the Military Demarcation Line by a UN Command aircraft was an error. How can you attempt to make so much of this when aircraft of your side have made so many obvious intrusions recently into the air over free Korea.

During the last month alone, the United Nations Command, with irrefutable proof, charged your side with 4 violations of the air space of our side, which your side summarily dismissed by denying them at the very meeting that they were charged. This hypocritical attitude of your side is counter to the spirit of the Armistice Agreement.

Your side's recent statements at meetings of the Military Armistice Commission and Secretaries, that your side never violates the Armistice Agreement is an outright and obvious lie, that can never be believed by even your own people, several of whom have participated in such violations. Yet, your side has admitted only 2 of these violations. The fact remains however, that your side admitted violating the Armistice Agreement, yet now, you claim that you did not violate the Armistice Agreement. This inconsistency refutes more than this one statement. It reveals the whole lying philosophy of the Communist system which firmly controls the press, radio and all

UNC: (CONTD)

expressions because it cannot afford to have your people know the truth.

KPA/CPV:

It is understandable that you are in such a position as to have no other recourse but to behave in such a mean manner, showing disregard of your honor and the disgrace befalling you.

What alternative could your side have which cannot afford any proper argument to legalize its own aggressive policy but to take an insolent action casting slanders and abuses at the other side?

The shameless act of yours has once again revealed the villainy of the sanguinary U.S. imperialists. The attitude you have assumed today is nothing but the most typical expression of the desperate act of the weak.

Quite contrary to your charge, your side has dispatched military aircraft into the air space over the territory of the other side to carry out aerial reconnaissance, infiltrated numerous espionage agents into the territory of the opposing side to carry out espionage activities, execute firings toward the other side with machine guns and large caliber artillery, perpetrated armed attacks against the personnel of the other side in the Demilitarized Zone, intruded into the coastal waters and coastal areas of the other side to kill and abduct the peaceful inhabitants and introduced various new type weapons and launched them while frantically indulged in preparing another war and so on.

It is precisely your side that has thus continuously violated and violates the Armistice Agreement since the Armistice.

However desperate attempt you may make to reverse right and wrong, you can by no means cover up the violations by your side of the Armistice Agreement and its

KPA/CPV: (CONTD)

sinister machinations to provoke another war as mentioned above.

It is most ridiculous for your side which has incessantly violated the Armistice Agreement to talk about its QUOTE sincerity UNQUOTE towards the Agreement,

How can it be alleged to be a manifestation of sincerity towards the Armistice Agreement for your side to commit violations of the Agreement almost every day?

You have attempted to describe as its sincerity towards the Armistice Agreement the criminal act of your side having perpetrated reconnaissance in flagrant violation of the Armistice Agreement by dispatching its military aircraft illegally to intrude into the air space over the territory of our side. This statement of yours has served to reveal to the whole world once more the villainous character of you, U.S., imperialists who are always engrossed in aggression and war.

As is clearly demonstrated by the action your side has taken at this meeting, what you call your sincerity towards the Armistice Agreement means its infringement and disruption.

If your side has the slightest intention to be sincere in the implementation of the Armistice Agreement, your side should not attempt to deny the reported violations by your side of the Armistice Agreement unconditionally, but punish as required by the Armistice Agreement those personnel involved in them and take thorough action to prevent a recurrence of similar violations in the future.

UNC:

Your empty statements are noted.

Now, do you have any further business for this meeting?

KPA/CPV:

I demand that your side cease repeating such a vile act as to attempt to excuse itself for its guilty actions.

Has your side any further subject to bring up for discussion?

UNC:

In open defiance of the Armistice Agreement, and while you as Secretary of one side sit there allegedly negotiating good faith, your naval forces have launched a dastardly attack on a patrol vessel of our side. This is irrefutable proof of how your side flaunts the Armistice Agreement and attempts to fool the world.

At about 1030 hours, Korean Standard Time today, several armed naval vessels of your side maliciously attacked a patrol craft of our side at a position approximately 10 miles south of an extension of the Demilitarized Zone in the vicinity of 38 degrees 26 minutes North, 128 degrees 39 minutes East. This attack occurred while the craft of our side was on a normal patrol deep in international waters off the coast of the territory of the Republic of Korea.

This act of piracy on the high seas is typical of your side's campaign to maintain the tension and war atmosphere.

I demand your side conduct a thorough investigation of this violation of the Armistice Agreement and severely punish those responsible for this aggression.

KPA/CPV:

It is solely our side that has consistently and faithfully enforced all terms of the Armistice Agreement in an endeavor to safeguard the Armistice Agreement, convert the armistice into a stable peace, and prevent the resumption of a bloody conflict in Korea,

KPA/CPV: (CONTD)

This is an ultimate conclusion fully borne out by all the official records of the Military Armistice Commission since it started its work.

With no tricks and calumnies can your side succeed in defaming our side which has faithfully complied with the Armistice Agreement nor can it mislead the unbiased public opinion.

Because according to the information in the hands of our side no conflict between your side and our side as alleged by your side has occurred.....

(At this point of his statement the KPA/CPV Assistant Secretary whispered something to the KPA/CPV Secretary and he stopped his statement and then continued with the following statement.)

I will repeat.

There is a Korean saying to the effect that a burglar sounds a burglar's alarm, and you are behaving just in this manner.

Do you ever believe that you can cover up by such crafty trick and shameless fraud the true facts of the fiendish attack made by your side?

The truth about the incident which has occurred off the East coast today is as follows:

At about 1115 hours our time today, your naval vessels intruded into the coastal waters of our side less than three miles from the coast of our side and launched an attack upon our fishing vessels in an attempt to seize them.

Facing this critical situation, the coast guard personnel of our side had no choice but to take a measure of self-defense in order to deliver our fishing boats out of the devilish grip of the aggressor.

As the facts clearly show, your side must be held fully responsible for the incident which has occurred off the East coast.

KPA/CPV: (CONTD)

Because it is exactly your side which has illegally infiltrated its naval vessels into the coastal waters of our side and which has made a savage attack upon the peaceful fishing boats of our side.

It is the sovereign right for our side to take proper measures of self-defense against the aggressors who attempt to harm us.

Nevertheless, you are shameless enough to attempt at covering up the aggressive act committed by your side by practicing such a fraud as to distort the facts and change the scene of the incident.

What is more, you have discribed as a peaceful action the brigandish aggressive act of your side having illegally infiltrated its naval vessels in flagrant violation of the Armistice Agreement into the coastal waters of our side and are proud of this cruel and inhuman act. This statement of yours has graphically testified to the fact that the U.S. imperialists are the very chieftain of aggression and war, and the heinous foe to the world people.

You should bear deep in mind that forever gone are the days in history when imperialists could occupy the territory of other countries and intrude into their territorial waters to commit piracies.

I warn you that, if your side continues its dangerous playing with fire in an ill-advised manner, the provocator will be subject to due retaliation and be sent to where he is destined to go owing to his crimes.

Your side must severely punish those involved in this atrocious attack and take instantaneous measures to cease such a play with fire immediately.

UNC:

You have been caught red-handed in a big lie. Your side has been exposed as a fake, a fraud and a deceiver

UNC: (CONTD)

of the Korean people. Your side will never again be able to hoodwink even your own misguided people.

Admit the error of your ways and perhaps you can regain some of your lost composure.

I demand that you take steps to cease this aggression immediately, and that you conduct a complete and thorough investigation of this most serious violation of the Armistice Agreement and punish those responsible. I further demand that you report the results of your investigation to the Military Armistice Commission as soon as possible.

KPA/CPV:

Having seriously violated the Armistice Agreement, your side is refusing to accept with sincerity our reasonable charges. This only shows more glaringly that the incessant intrusions by the naval craft of your side have been intentionally prearranged by your side.

However hard you may attempt by using such words as fabrication and the like to slander and to defame our side which has exerted itself to implement the Armistice Agreement strictly, it will be useless and can never help you in covering up its criminal acts which have already been bared in broad daylight.

Your side has dispatched its naval vessels to intrude into the coastal waters of our side almost every day and that several times a day since the very first days of the New Year. It has now been all the more clearly demonstrated that your side has pursued in these intrusions the very aim of making such savage attacks as have been made today.

It is precisely because of this dangerous pranks of your side toying with fire that the tension in Korea has been continuously aggravated and that the Korean Armistice is being seriously menaced.

KPA/CPV: (CONTD)

At this hour, the entire Korean people and peace-loving peoples the world over are cursing you for the ogreish and brigandish hostilities your side committed in succession in the waters of the Han River Estuary and in the coastal waters of our side off the East coast yesterday and today respectively, and are watching your dangerous act of playing with fire with great concern.

Our side never tolerates the aggressive act of your side.

It is no other than your side which has to punish the offenders and must also submit a prompt report on the result to the Military Armistice Commission.

I once again demand that your side, instead of being engrossed in reiterating absurd sophistries which will convince nobody, sincerely accept our just demand and admit its criminal acts candidly, severely punish its personnel involved as required by the Armistice Agreement, take responsible action to prevent the recurrence of similar incidents in the future and report the result to the Military Armistice Commission speedily.

UNC:

Your side is guilty of the naval violation charged by our side at today's meeting. The record will reflect this, as well as the fact that your side attempted to deny these charges in violation of the Armistice Agreement. The whole world sees how you continue to attack your brother Koreans.

Since you have nothing new, and our side has nothing further, I propose a recess.

KPA/CPV:

It is extremely ridiculous for you, barefaced robbers on land, pirates at sea, and bandits in the air to reverse right into wrong so as to conceal your vile character.

KPA/CPV: (CONTD)

It is nothing but a burglarious logic of the U.S. imperialist aggressors to describe another nation's territorial waters as international waters and cast slurs upon the honorable action of our side defending our territorial waters.

The longer you may persist in your infamous action, the more will you make yourself a topic of ridicule of the world public.

It will be very advantageous for you to wind up your extremely silly and clumsy farce designed to deceive others at this time when the criminal actions of your side have been exposed to the world.

Making a desperate effort to provoke another war of aggression against the Korean people, your side has this time sent its naval vessels to intrude deep into the coastal waters of our side. There is no doubt that this is closely linked with the war policy of your side, being a provocative action arranged and executed by the war fanatics of the Pentagon.

Unless such wicked and inhuman aggressive actions are ceased, it is impossible to eliminate the tensions in Korea, to liquidate the source of war here and to convert Korean armistice into stable peace.

Your side must act up to the requirement of the Armistice Agreement.

Whatever desperate subterfuge you may resort to, you can neither disguise the hostile acts committed by your side nor can you evade the proper responsibility binding upon your side.

Your side must stop its reckless provocations at once, punish the offenders, and implement all the terms of the Armistice Agreement thoroughly.

UNC:

You have avoided your responsibilities to this commission again. I repeat - I demand that you investigate this latest violation by your side which took place this morning.

KPA/CPV:

You are trying to evade the responsibility for its crimes.

Where are you going to hide?

There is no place for you to hide yourselves.

You are behaving in a very brazen-faced manner.

Both the prime movers who have recently planned and organized the outrageous provocation against our side and those who have been implimented in it should be punished.

Why are you so cowardly trying to escape your responsibilities for your execrable crime whereas you are matchless in committing aggressions and provocations and hatching plots?

Those who have once committed crimes should bear the responsibility and be punished for it, should they not?

UNC:

Why don't you stop prattling about QUOTE responsibilities UNQUOTE and carry them out instead. Your side is charged with a violation, the details of which are present in the record of this meeting. According to the provisions of the Armistice Agreement, to which you pay so much lip service, you are required to investigate this charge.

KPA/CPV:

Desist from talking nonsense any longer.

As the facts eloquently prove, the provocator is your side and it is also your side that is being denounced.

Your side has described our fishing vessels as naval craft and the coastal waters of our side as international waters 10 miles south of the extension of the Demilitarized Zone.

KPA/CPV: (CONTD)

This only serves to prove that your side itself has come to admit that the attack by your naval vessels constituted a serious crime which can never be condoned.

No sophistries and desperate attempts of yours can help you cover up the true facts of the piracy committed by your side this morning, nor can they help you evade the responsibility for it.

Your side must punish the provocators, take responsible steps to prevent a recurrence of similar incidents in the future and report the results to the Military Armistice Commission.

I agree to your proposal to recess.
